Integration, File Optimization for Agency Delivery

SOFT SKILLS

Communication Skills
Emotional Intelligence
Critical Thinking
Creativity
Teamwork
Active Listening
Self-Motivation

PROFILE

I create motion-driven stories that live between film and design. From editing and color grading to typography and animation, I focus on clarity of storytelling, shaping rhythm, pacing, and tone so the emotion feels honest and alive. In motion media design, I strive to create visuals that go beyond aesthetics, giving each piece a sense of meaning and purpose.

WORK EXPERIENCE
